## Paris meetings conclude with strong international cooperation

by Roger Marsh  
Editor

“Overwhelming acceptance” were the key words Executive Director David MacDonald used to describe the recent Paris meetings between MUFON and European countries involved in the ex-

ploration of the UFO phenomena.

Multiple meetings were arranged over several days, but Dave gave the main address on Friday evening, January 11, 2013, to a capacity crowd.

“The National Directors from all of

## Early 2013 reports show steady flow

by Roger Marsh  
Editor

New Year 2013 kicked off with an uninterrupted flow of domestic UFO reports. Good testimony describing low level objects where the witness was in close proximity seemed to be increasing during December, with a steady stream of triangle shapes.

The low level cases continued immediately into 2013 with multiple states reporting good witness testimony. Images and video continue sporadically and most are modest in quality.

Population is an interesting report criterion to watch as the frequency of close proximity cases has a steady stream from small town America.

At least two known hoaxes were submitted since January 1, 2013, both quickly acknowledged by investigators. One inventive submitter copied a clearly-visible street lamp head and simply pasted it in the sky overhead. Clever, but investigators aren't laughing. In France, it's a crime, but you'll have to read the other, bigger, story on this page to find that out.
