

# 2018 Annual report

(validated by the 2019 Annual Meeting)

**Definition of the word "disclosure":** To bring to the attention of a wide audience, information that is initially considered to be confidential.

## Financial statement:

In conformity with the Article 5 of the operating agreement of the association:

Income 2018: zero

Expenditure 2018: zero

## Technical report:

### 1 - Major administrative change

**Adaptation to a new ufological context.**

**Anticipated dissolution of the formal association.**

Nothing changed with regard to the operating of the Academy of Ufology.

The legal form of the association "Académie d'Ufologie", published in the "*Journal Officiel*" of 21 July 2007 n ° 29 page 3556, was no longer adapted to the new ufological context.

- after 70 years of work by ufologists, the goal of lifting the embargo on the truth about the presence of extraterrestrial civilizations in our environment was reached at the end of 2017.
- the traditional tasks of ufologists: surveys, data management, communication, training, will naturally and gradually be transferred to professionals, specialists with large means, especially finances.
- in its current form the association "Académie d'Ufologie", referring to its statutes, can not have means other than the skills of its members. The association must not have any income and therefore can not spend money.
- this statutory form and the purpose of the association are unsuitable for new UFO communication and training actions that will require financial resources.
- not to disappear in a few months, we had to react as quickly as possible and to be ready to adapt to a new situation, without having to go through a situation of blockage resulting from our legal status.

The "Académie d'Ufologie" will take advantage of the period of calm to organize itself, before the public becomes aware of the new situation and the new official discourse. New figures will prevail, we must be able to be their interlocutors.

On July 17, 2018 the Prefecture of Briançon (Hautes-Alpes) has acknowledged receipt of the dissolution of the formal association "Académie d'Ufologie" No. W052001858.

Dates taken into account:

- dissolution decision: April 16, 2018 (Extra-ordinary Meeting)
- declaration at the Prefecture: April 30, 2018.
- dissolution of the formal association on July 17, 2018.

The name "Académie d'Ufologie" registered at the *INPI* is still owned by Jacky Kozan.

## 2 - Evolution of the disclosure

The big disclosure said "phenomenology" announced by Grant Cameron has not taken place yet. The "**Deep State**" team that would be in charge of it and which revolves around the CIA, is the one that had followed the information regarding UFOs for the US government and the one that had organized misinformation to ufologists for several decades ( Christopher Green, Ronald Pandolfi). Did they make the decision to disclose? Do they act so that the disclosure does not take place? It is impossible to have certainties. They do not communicate directly to the public.

The TTSA team (DeLonge, Elizondo, Puthoff, Mellon, Justice) has continued to publish, especially around their ADAM Project and meta-materials.

**Nick Pope** is very busy in the field of communication: interviews for TV and radio, conferences, consulting with the world of show business for the production of TV series and movies. He informs us regularly about his activity.

**Q anon** is well involved in a historical disclosure about human trafficking and elite corruption. The "extraterrestrial" disclosure seems to be part of his program, announced as "False Flag Operation".

**In France**, although the historical article of the *New York Times* of December 17, 2017 has been published on more than 40 French media, nothing happens, everyone puts their head in the sand including a large part of ufologists whose role it is yet to inform the public and highlight the organized misinformation by the media.

**Steven Greer**, who until now gave a dissuasive image of ufology, gave an interesting and "professional" lecture. It's like "one" have asked him to talk now so that he can be taken seriously.

We have received several network contracts and after the negotiations, the announcements will be coming soon. We also launched the

beginning of a large aerospace partnership and launched 'specifications' proposals for our metric engineering of the space-time..."

- The disclosure started by TTSA continues with Elizondo, Puthoff, Mellon and Justice. The Pentagon publishes documents, information falls from everywhere, personalities re-appear (Jack Sarfati), the work of Hollywood also begins to emerge. (*Jacky Kozan*)

## 5. Publications of Q anon

(*In italics the names of the Academy of Ufology's interveners*).

- Issue 05/14 on the disclosure: Q anon and its fight against the Deep State. The news are more and more amazing and disturbing. Two blocks opposed to each other seem determined to change... the world: the Deep State team and the Patriots team (Q). Deep State wants to disclose its phenomenology but encounters major oppositions... everywhere. Everything seems ready in each camp for a revelation of a level of that of the Holy Writings, through the denunciation of major events related to widespread corruption and pedophilia. Ufology seems far away...
- "Q anon: The conspiracy theory explained," after posters were spotted at the Trump rally in Florida. An article by Ashley May in *USA Today*, August 1, 2018.
- In October Q anon writes that "we are not alone". (*Michel Vanboeckstal, Jacky Kozan*)
- Q anon publishes: "Vive la France" about the movement of the Yellow Vests: "Do not confuse the silence with the wingspan. This movement is more important than anyone can imagine... God bless you, Patriots".
- Note the links: Disclosure - Q anon - Yellow Vests.

## 6. Publications of the supposed "Deep State"

*(In italics the names of the Academy of Ufology's interveners).*

- The notion of portal (in the sense of spatio-temporal door or star-gate) is highlighted in the "documentary" disclosure. It is (may be) currently being finalized by Joe Firmage in *Salt Lake City*. (*Jacky Kozan, Gérard Nouzille*)
- An interesting publication by Dan Smith on the Open-Minds Forum as part of the so-called "documentary" disclosure: "The question is .. how fast can we train / find more distributors? How fast can we teaching teachers, and how fast can we dispense distributors?" (*Sylvie Joubert, Claude Lavat, Jacky Kozan*).
- Disclosure - the missing pieces. A presentation of Joe Firmage.
- A letter from Michael Salla makes the connection between the "satanic American Deep State" and the 4th Reich and secondly Q anon and the agreement between Presidents Trump and Putin to end the evil plan of "Deep State".
- A publication was announced by Dan Smith on the Open Minds Forum, by July 3, it should attract the attention of the UFO community. And probably point to what should follow. But except for a "GoTo Meeting" limited to 28 possible connections and 6 invited participants, nothing has been published except a link to a dissuasive inaudible video. A first report of that "GoTo Meeting" with no really interesting information was published on July 20 by Grant Cameron.
- Real reports from the Pentagon on the distortion of space-time, the extra dimensions, the anti-gravity and more have been published on the Internet.
- Publication of "*Shortcuts in Space and Time Travel*". A text from Joe Firmage.
- Evacuation and closure of the *Sunspot Observatory* in New Mexico. (*Michel Vanboeckstal, Jacky Kozan*)

## 7. Stanton T. Friedman retires

- Posted on March 14, 2018: "I'm going to be 84 in July", "I'll get information on the internet, but enough is enough." **Stanton Friedman said he gave his first lecture on unidentified flying objects in 1967.**

The author and former nuclear physicist began lecturing on UFOs while performing engineering consulting work. He has traveled the world speaking about his belief in the existence of extraterrestrial life, his opinions widely disseminated in the country and abroad through lectures, writings and his monthly column in the MUFON Journal (The Mutual UFO Network). Stanton Friedman is a member of

the Academy of Ufology. We thank him for his interventions in our exchanges and for his advice. (*Jacky Kozan*)

- **The Mayor of Roswell has declared July 6th as "Stanton Friedman Day"**. (*Stanton Friedman, Bernard Hughes, Jacky Kozan*)

## **8. Topics discussed or analyzed in 2018**

(*In italics the names of the Academy of Ufology's interveners*).

### **Francine Fouéré has left us - A very sad news in the preamble.**

At the end of the 60s, in Paris, on the side of "Gare d'Orsay" there were posters inviting to participate in a meeting to discuss flying saucers. The poster was very basic. It mentioned: "The flying saucers are real, come to discuss at the meeting, such day, 5 rue de Las Cases in Paris 7th, price 2 Francs". Bottom of the page: "*GEPA, Groupe d'Etude des Phénomènes Aérospaciaux*".

At the entrance Francine greeted the listeners, recorded the names and sold the tickets. It was she who then, on the stage of 5 rue Las Cases, animated the conferences-debates. At the time there were 200 to 250 people on average at each monthly meeting.

No doubt, Francine Fouéré was the motivating animator of the starting ufology in France. The GEPA was created by General Lionel Chassin of the French Air Force with Rene Fouéré, husband of Francine. Most of the known French ufologists were trained at the end of the 1960s by Francine and René Fouéré at 5 rue Las Cases in Paris. Thank you Francine. (*Jacky Kozan*)

- Class action against the actors of the embargo on the truth. Is this the moment? What can we do? (*Bruce Maccabee, Sylvie Joubert, Jacky Kozan*)

- A moving *New York Times* article: "Dad believed in UFOs, it turns out he was not the only one." By Dan Barry, published on December 30, 2017.

- Parallel: Disclosure and *Rose-Croix*: Serge Toussaint, Grand Master of the *Ancient and Mystical Order of the Rose-Croix* has just published an Open Letter to the citizens of the World. Its content is very similar to the words that are exchanged between the actors of the Disclosure in the USA. The link between the Disclosure and this Open Letter is obvious and "synchronous". Also note in "The Blog of Serge Toussaint": The aliens - point of view of a Rosicrucian. (*Sandrine Fernandez, Jean-Claude Venturini and Jean-Pierre Troadec*)

- A publication by Philippe Guillemant on facebook concerns the Tom DeLonge's book and more generally Disclosure. "This book 'Sekret machines' is the most obvious acceleration to date of an operation to gradually lift the secrecy surrounding the UFO phenomenon for about 70 years" (*Georges Metz, Jacky Kozan*).

- 01/22 review on the current disclosure - Major players in the Phenomenology Disclosure have temporarily put online a video presented as a new style of music that will be successful in the years to come. The video is uncomfortable to see and very unpleasant to hear... So, is there anything subtle in its content? It's a matter of specialists (*Denis Zezouin, Jacky Kozan*).
- Director Lasse Hallstrom and producer Laura Bickford team up to make a film based on investigative reporter Leslie Kean's best-selling UFO: "*Generals, Pilots and Government Officials Speak*". (*Thierry Levaudel, Jacky Kozan*)

- A missing skier found more than 4000 km six days later, disappeared in New York he was found in California not remembering anything (*Jean-Claude Venturini*)
- If an alien life is discovered, humans would probably not panic. Four researchers at the University of Arizona realized that very few studies have focused on the possible response of humans to the discovery of an alien life form. Which is more plausible than finding an alien with bright fingers in your garage. (*Dany Kozan*)
- A new testimony supports a strange observation in the Var (South of France near TOULON), a Friday night: "A red light stationary above the plane of the Guard who suddenly rushes towards the coast and turns green" (*Dany Kozan*)
- 11h55... it's soon time... but about what? Bigelow kept us curious by posting a clock on the Bigelow Aerospace website, nothing else. Finally it announced the creation of Bigelow Space Operations in the group Bigelow Aerospace. (*Sylvie Joubert, Roland Gonsales, Jacky Kozan*)

- Publication of the 2017 statistics of the Academy of Ufology Website. (*Jacky Kozan*)

(*Jacky Kozan, the Permanent Council and the voters in AGE*)
- Redefinition of a new "object" in the future statutes of the Academy of Ufology (*Anne-Marie Priéto, Sylvie Joubert, Jacky Kozan*)
- Sad news, **John Tomlinson** left us in February. He had done a lot of work for the Academy of Ufology by constituting the biggest part of ufologist members at the international level and by launching other actions aimed at improving the image of ufology in general. He knew how to put himself at the level of his interlocutor and use the same language as him. (*Bernard Hughes*)
- A classic "Crash of Nothing" in Belgium. The police were contacted by a lady who claimed to have seen something fall from the sky in Saint-Ghislain (Belgium). The object would have then crashed on the ground to give place to a release of smoke. The air traffic control service said there were no incidents, no suspicious lights to report from their side. On the spot, the police teams dispatched did not find anything suspicious or abnormal. *CERPI, COBEPS* and *MUFON* are investigating.
- There was another sighting of cylindrical UFO in Harnoncourt (Belgium) on February 26th.
- There seems to be some recent UFO activity in Belgium. (*Michel Vanboeckstal, Jacky Kozan*)

- The official UFO-Business starts slowly. A \$ 20 coin bearing the image of a UFO minted at 4,000 copies by the Royal Canadian Mint. The \$ 20 coin, an ounce of silver, is sold for \$ 129.95. It recalls the appearance of two shiny objects descended from the sky on May 20, 1967 in *Whiteshell Provincial Park, Manitoba*. (Jacky Kozan)

- 04/07 review on the current disclosure. Debate on the 14 magicians, the 5 prophets and the 3 kings of the disclosure as well as on the 2 attempts of disclosure of 1973 and in 1988. (Jacky Kozan)

- "What if the extraterrestrials were stuck on their planet"? For the first time the magazine *Science et Vie*, even if it begins by writing that obviously no extraterrestrial has ever come to Earth, explains that they may be stuck on their planets. This implies that, according to the magazine, researchers (probably marginal) dare to take into account an extraterrestrial life hypothesis. We note this historic breakthrough in the nature of this magazine's publications. (*Dany Kozan, Jacky Kozan*)
